1. Choose a Program that your company would like to enroll in and sign below:

A) Pesticide Container Recycling Program:

In this program your company will be credited with recycling ___% of your company's total submitted pounds. The pesticide containers will be recycled from farms, landfills and public collection sites set in place by the California Department of Food and Agriculture. Containers from your company may not be specifically recycled but your company will be allocated the maximum recycling percentage required by the California Department of Pesticide Regulation or Interstate AG Plastics, whichever is greater.

B) Pesticide Container Recycling Location Program:

In this program, your company will be billed according to how much is recycled from each of your company's dealership locations that collect pesticide containers. A minimum of ___% of the total submitted pounds will be recycled.

2. If your company is renewing and would like to use last year's poundage numbers please check box at left and sign below.
